## EXPERIENCE

### **Tracfone, Miami, FL — Associate Software Developer**

June 2019 - Present

Developed a search feature on an application in Angular which eliminated the need for an external application.

Created a component for querying customer data with Angular and a REST API. Allowed departments to get critical customer information.

Utilize Bootstrap and Material-UI to create mobile first responsive UI components.

Develop Spring Boot microservices deployed on Kubernetes. Reducing costs by allowing services to scale horizontally.

Develop solutions for a carrier provision system responsible for over 6 million API calls per day, and 21 million customers.

### **Sandals Resorts, Miami, FL — Front End Developer**

February 2018 - June 2019

Built reusable UI components using React interacting with REST API's.

Transformed Photoshop Documents into responsive and mobile first web pages using HTML, SASS, and React.

Participated in daily stand-up meetings, working collaboratively to complete code sprints on time.

Lead developer on project to book travel agents, resulting in an estimated \$700,000 of added revenue.

## EDUCATION

### **Wyncode Academy, Miami, FL— Full Stack Web Development**

September 2017 - February 2018

### **University of West Florida, Pensacola, FL — B.S.B.A Marketing**

May 2009 - May 2012

Graduated Cum Laude.
